Summary

Results-driven Senior Software Engineer with **6+ years of experience** in architecting and building **highly scalable, data-intensive applications**. Expertise in **Node.js, AWS, Python, Kafka, MongoDB, and distributed systems**. Passionate about performance optimization, microservices architecture, and delivering robust solutions that scale.

Experience

SenseHawk
Senior Software Engineer

Abu Dhabi, United Arab Emirates
08/2022 - Present

- Architected and built **high-performance, scalable backend systems** handling millions of transactions.
- Designed and optimized **microservices architecture**, reducing response time by **40%**.
- Spearheaded cloud migration to **AWS**, reducing infrastructure costs by **30%**.
- Working with our product management and frontend team to build products with the goal of delighting and increasing the success of our users.

SenseHawk
Senior Software Engineer

Bengaluru, Karnataka, India
10/2021 - 08/2022

- Developed **RESTful APIs** and optimized database queries, reducing API latency by **50%**.
- Integrated **ActiveMQ and Redis caching**, improving data processing speed by **35%**.
- Collaborated with frontend teams to build scalable and user-centric applications.

SenseHawk
Software Engineer

Bengaluru, Karnataka, India
08/2020 - 10/2021

- Designing and implementing high-performance, scalable microservices and feature-rich products.

Vymo
Software Engineer

Bengaluru, Karnataka, India
11/2018 - 08/2020

- Developed and optimized **ETL pipelines** for processing large datasets efficiently.
- Designed and implemented **microservices** for a high-volume enterprise application.
- Engaged directly with clients to understand requirements and deliver tailored solutions.

MountBlue Technologies
Full stack web developer trainee

Bengaluru, Karnataka, India
08/2018 - 11/2018

- Built an **HR management platform** using **Node.js, React.js, and MongoDB**.
- Gained hands-on experience in full-stack development and deployment.

Education

Dr. A.P.J. Abdul Kalam Technical University
B.Tech in Information Technology

2014 - 2018
